

Grade 5/6 Year Plan

2022-2023

Miss Lindsay Smith

E.L.A

Students will be working on spelling on a weekly basis. New words will be given on a Monday with a spelling test on the Friday. Students will have the opportunity to work with the words in their spelling workbooks and spelling activities.

Students will be given a variety of written assignments. During these assignments they will focus on brainstorming, rough drafts, self-editing, and final copies. The students will also spend time on punctuation, grammar, sentence structure, and paragraph structure.

Students will have novel studies to work on throughout the school year. This can include individual novel study, small group novel study and/or whole class novel study. Students will be asked questions about what they have read and to make predictions and connections.

Math

We will be using “Jump Math” in the classroom. We will be learning in small and large groups with the use of workbooks, activities, games, and worksheets.

Grade 5 Math Units:	Grade 6 Math Units:
Patterns and Algebra	Patterns and Algebra
Number Sense	Number Sense
Measurement	Measurement
Probability and Data Management	Probability and Data Management
Geometry	Geometry

Science

This year students will be focusing on the grade 5 science curriculum. We will be doing activities, hands on learning, experiments, and note taking.

Science Units
1. Maintaining a Healthy Body
2. Properties of and Changes in Substances
3. Forces and Simple Machines
4. Weather

Social Studies

We will also be following the grade 5 social studies curriculum this year. Students will focus on learning about People and Stories of Canada to 1867.

Social Studies Units
1. First Peoples
2. Early European Colonization
3. Fur Trade
4. From British Colony to Confederation

Art

Students will get to show their creativity through art. Activities will be based on holidays, events, or other things related to what we are learning in class. We will use a variety of different materials.

French

Students will focus on learning to read, speak, and write in French. Units will include colours, family, housing, clothing, months/days/numbers, food, etc.
